

The DuPage Trails app provides a user-friendly interface with the County's trail system. Included in the app's list of features:

- ◆ Trail names and mile markers
- ◆ Trail surface types
- ◆ Parking lot locations
- ◆ Restroom locations
- ◆ Rest area locations and information
- ◆ Information kiosks
- ◆ Popular destinations
- ◆ Where to find emergency assistance
- ◆ Navigation to any location
- ◆ Real-time trail alerts

Whether you're an avid cyclist, a dedicated jogger, or out for a stroll on a pleasant day, the DuPage Trails app will help you find what you're looking for.

THE DUPAGE TRAILS APP

The DuPage Trails app is a web-based application that provides users with a wealth of information about the DuPage County regional trail system.

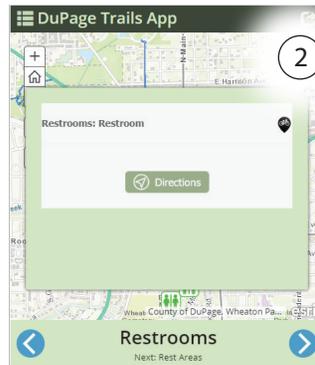

In partnership with the Forest Preserve District of DuPage County, the DuPage County divisions of Geographic Information Systems (GIS) and Transportation (DOT) have collaborated to produce an online mapping application that enhances trail users' experiences.

Because trails in DuPage County allow for a variety of uses, the Trails app features information that is beneficial for all trail users. No matter how you plan to experience the County's trail network, the app will guide you.

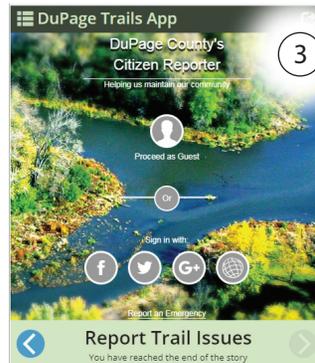

HOW DOES IT WORK?

This is the welcome screen. On a desktop, click the tabs to switch views. On a mobile device, swipe the bottom bar right or left to switch. The app is compatible with smartphones and tablets!

When you open the map, you will see icons that represent locations. Click the icons to learn more about them. Clicking on an icon will enable you to obtain directions, either in your web browser or Google Maps.

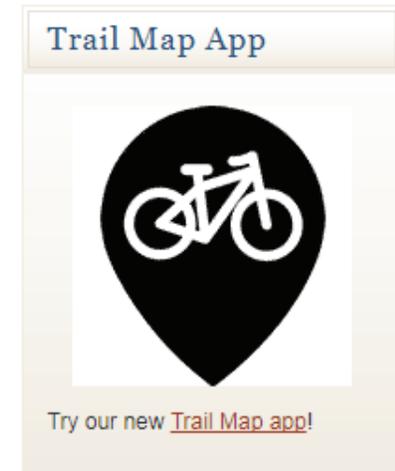

If you encounter any maintenance issues while out on the trails you can report them using Citizen Reporter, which is the final tab in the Trails app.

WHERE CAN I FIND IT?

The Trails app can be found on the DuPage County's Bikeways and Trails website at:

www.dupageco.org/bikeways

The link to the app, pictured above, is located on the Bikeways welcome page in the upper-right corner. Click the link and the application will load right away.

Visit the Bikeways webpage for other various trails-related information including news, upcoming events, trails projects, closures and maintenance alerts, and information about trails organizations and other public agencies.
