

Shredding Services

Local DuPage County governments typically offer several document shredding events for the public during the spring and fall months. This year almost all the spring scheduled events were cancelled and have been rescheduled for the fall. However, residents may require shredding services prior to these events taking place. Below is a list of local private shredding options to assist with immediate needs of document shredding. Shredding events taking place this fall will be posted at: <https://www.dupageco.org/recyclingevents/>. DuPage County funded events are noted in the details section and are open to all DuPage County residents regardless of host community.

If a paper only has a portion with private or sensitive information on it, rip or cut that section out and recycle the remaining paper. Routinely removing only sensitive portions will reduce the weight of the items and costs when using a private shredding option.
