Illinois Environmental Protection Agency

Public Notice

**Proposed Significant Modification of the Clean Air Act Permit Program Permit
BP Naperville Campus**

BP Naperville Campus has requested that the Illinois Environmental Protection Agency (Illinois EPA) revise the Clean Air Act Permit Program (CAAPP) permit regulating air emissions from its multi-building research complex. This facility is dedicated to the creation and development of new products, techniques and processes; the improvement of current products and uses; and the performance of a wide variety of activities designed to increase the profitability of BP. The facility is located at 150 West Warrenville Road MC 601 1NE in Naperville. The significant modification consists of the retirement of several different processes and equipment including experimental research equipment, storage tanks, pilot-scale processes. Changes in the permit may be found in Section 4.1 and 4.2 in the Statement of Basis prepared for this draft permit. Based on its review of the application, the Illinois EPA has made a preliminary determination that the application meets the standards for issuance and has prepared a draft permit for public review.

The Illinois EPA is accepting comments on the draft permit. Comments must be postmarked by midnight March 16, 2018. If sufficient interest is expressed in the draft permit, a hearing or other informational meeting may be held. Requests for information, comments, and questions should be directed to Rachel Stewart, Office of Community Relations, Illinois Environmental Protection Agency, 1021 N. Grand Ave. East, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2224, TDD phone number 866/273-5488 or at Rachel.Stewart@illinois.gov.

The repositories for the draft permit documents are at the Illinois EPA's offices at 9511 Harrison Street in Des Plaines, 847/294-4000 and 1021 N. Grand Avenue East in Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the draft permit and project summary may also be available at <http://www.epa.illinois.gov/public-notices/boa-notices/index> Copies of the documents will be made available upon request.

The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act (Act). The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. The permit contains no T1 conditions that are being newly established or revised by this application.

The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period.
