## INDEPENDENT AUDITORS' REPORT

To the Honorable Chairman and Members of the County Board  
Water and Sewerage System of DuPage County, Illinois  
DuPage County, Illinois

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Water and Sewerage System of DuPage County, Illinois, an enterprise fund of DuPage County, Illinois, as of and for the year ended November 30, 2017, and the related notes to the financial statements, as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Water and Sewerage System of DuPage County, Illinois' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Water and Sewerage System of DuPage County, Illinois' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Water and Sewerage System of DuPage County, Illinois as of November 30, 2017, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Honorable Chairman and Members of the County Board  
Water and Sewerage System of DuPage County, Illinois

***Emphasis of Matter***

As discussed in Note 1, the financial statements present only the Water and Sewerage System of DuPage County, Illinois and do not purport to, and do not present fairly the financial position of DuPage County, Illinois, as of November 30, 2017 and the changes in its financial position and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Supplementary Information*

Our audits were conducted for the purpose of forming opinions on the financial statements as a whole. The financial information listed as supplementary information in the table of contents for the year ended November 30, 2017 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the financial information listed as supplementary information in the table of contents for the year ended November 30, 2017 is fairly stated in all material respects in relation to the financial statements as a whole.

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The other information as identified in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion or provide any assurance on it.

To the Honorable Chairman and Members of the County Board  
Water and Sewerage System of DuPage County, Illinois

*Prior-Year Comparative Information*

We have previously audited the Water and Sewerage System of DuPage County, Illinois' 2016 financial statements, and we expressed an unmodified audit opinion on the respective financial statements in our report dated May 1, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended November 30, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived.

**THE WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

The Water and Sewerage System of DuPage County, Illinois (the System) began operations in 1962. The System consists of sewage collection and treatment facilities, water pumping connection facilities to the DuPage Water Commission, and water distribution facilities in certain areas of DuPage County. The System's principal activity is sewage collection and treatment with some pumping and distribution of water purchased primarily from the DuPage Water Commission. The System consists of a single proprietary type fund using full accrual accounting to report operations.

**GENERAL FINANCIAL HIGHLIGHTS**

The following is a discussion and analysis of The Water and Sewerage System of DuPage County, Illinois' financial statements for the fiscal year ending November 30, 2017.

- For fiscal year 2017, user charges and other revenues of the System were \$26,815,295 and expenses were \$26,423,904 resulting in total revenues exceeding total expenses by \$391,391. It should be noted that \$3.48 million of the reported expense is related to depreciation and amortization.
- Cash disbursements exceeded cash receipts by \$414,186 in the Operation and Maintenance Account.

In late 2014, an independent consultant was commissioned to perform a wastewater and water rate study analysis. The purpose of the study was to determine the required rate structure for the System. The study was approved by the Public Works Committee in October 2015. As a result of the study, water rates remained steady through 2017 and will increase beginning with the March 2018 customer bills. The sewer, sewer maintenance, and base billing rates remained steady through 2016 and increased beginning with the March 2017 customer bills. In late 2017, the Public Works Committee approved a sewer and sewer maintenance rate increase beginning with the May 2018 customer bills.

The System completed the following construction projects in 2017: Brookbank sewer main extension, rehabilitate the Woodridge Administration building, replace windows in the Woodridge Administration building, rehabilitate the raw pumps at Woodridge, rehabilitate the digester at Woodridge, repair aeration tanks #2 and #3 at Woodridge, relined approximately 8,152 linear feet of sewer pipe, and the Luther Avenue water main extension.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the System's basic financial statements which are comprised of the Financial Statements and Notes to the Financial Statements. This report also contains required supplementary information and other supplementary information in addition to the basic Financial Statements themselves.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

Financial Statements

The Financial Statements are designed to provide readers with a broad overview of the System's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the System's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the System's financial position is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position presents information showing the changes in net position occurring during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the changes occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e., unbilled services fees and amounts due to vendors).

Because the System's primary function is to provide water delivery and sewage collection and treatment to its customers and to recover all costs through user fees and charges, the financial statements only include business-type activities.

The accounts of the System are organized on the basis of fund accounting. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Because the System provides water delivery and sewage treatment and recovers these costs through user fees and charges, the System's funds are accounted for as an enterprise fund type of the proprietary fund group.

The Financial Statements can be found on pages 13 to 17.

**THE WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

The following is a discussion of the variances between 2017 and 2016.

**Revenues**

Revenues from user charges for sewerage service and sewer maintenance increased by \$695,794 or 7.37%. The revenue increase was largely due to an increase in user charges and sewer maintenance charges that took effect with the March 2017 billing. The user fee increase was 8.9% and the sewer maintenance increase was 5.3%. Volume billed remained relatively flat.

Revenues from user charges for County water increased approximately 3%. Water rates remained unchanged and consumption was up about 1.4%.

Miscellaneous Income increased approximately \$163,600 or 8%. Vactor station revenues increased from \$23,400 to \$86,700. Water tower rent increased approximately \$27,000. Other Contractual Services increased \$77,000.

Administrative fees were flat from 2016 to 2017. The bi-monthly fee charged to customers for billing and meter reading remained unchanged at \$5.78.

Connection fees decreased approximately \$381,000. FY17 had only two large sewer connections and one large water connection.

Capital Contributions increased significantly due to the County accepting several new sewer lines from developers.

The pass-through revenue from the City of Darien increased approximately \$379,130 due primarily to the realization of a full year of a 25% water rate increase the City instituted in May 2016. The County bills customers and collects water revenue for the City of Darien. The revenue is then remitted to the City of Darien each billing period.

**Expenses**

Overall Salaries and Employee Benefits increased \$540,185 or 6.6%. The increase was due in part to a cost of living salary increase of 2% in FY2017 or approximately \$114,000. There was an increase in net pension liability of \$384,713. Retirement payouts increased slightly by \$12,775.

Commodity expenses decreased approximately 18.1% or \$278,148.

Furniture/Machinery/Small Value Equipment decreased \$14,658. This was due to the one-time purchase of a Kubota vehicle in FY16. The most significant decrease was in auto/machinery/equipment parts at approximately \$226,123. During FY16, there was a significant increase in the purchase of these parts which was not seen in FY17. Operating Supplies and Materials decreased \$23,923. There were several concrete repairs done in FY16. The only area that showed significant increase was approximately \$60,000 increase in fuel purchases due to the rising cost of gasoline and diesel fuel. Maintenance

**THE WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

Supplies decreased by \$30,856. During FY16 several replacement doors were purchased. Chemicals and gases decreased approximately \$32,700. The use of chemicals is weather dependent and varies from year to year.

Contractual expenses increased \$164,618 or 3.62%. Engineering Services decreased by approximately \$59,000. During FY17, the department contracted with an engineering firm to perform a comprehensive study of the Woodridge and Knollwood plants. These expenses were charged as work in progress and will be capitalized when the study is completed in FY18. Other Professional Services decreased approximately \$26,000. During FY16, repairs to the SCADA system were completed. No such repairs were needed in FY17. Sludge removal decreased by \$20,000. Workers Compensation Insurance increased approximately \$16,000 due to a couple of small claims for an injuries on the job. Increases were seen in electricity and natural gas purchases at \$68,632 or 3.3%. Water purchases increased by \$63,470 or 3.5%. The number of gallons of water purchased increased slightly and the price of water increased from \$4.80 to \$4.88 in May 2017. Repairs and maintenance and waste disposal and custodial services increased \$87,892. Maintenance included evaluation of the raw pumps at Woodridge and the plant blowers at Knollwood. In addition, the water department contracted for a leak detection survey and repairs were completed on one of the department's vactor truck. Waste disposal included additional vacuum waste matched by greater vacuum station revenue. Dues and Memberships were up \$48,082. The increase was solely due to the membership in the DuPage River Salk Creek Workgroup which aids with EPA regulations. Wired and wireless communication services increased \$6,232. The increase was the result of new contracts, an additional Comcast line at Knollwood, and an increase in the number of cell phone users within the department.

Other Government Services increased \$392,729. The largest portion of this increase was the result of an increase in reimbursement to the City of Darien for water billing. The County bills customers and collects water revenue for the City of Darien. The revenue is then remitted to the City of Darien each billing period.

Interest and Other Expenses increased \$306,070 or 66.24%. Interest expense decreased by \$52,127 due to a decrease in interest expense on bonds and loans as they mature. However, there was a \$355,396 increase in loss on the disposal of assets. Several large capital projects were completed in FY17 and the related older assets were disposed creating the loss.

As of and for the Year Ended November 30, 2017**

---

**CAPITAL ASSETS, OTHER ASSETS AND LONG-TERM DEBT**

**Capital Assets**

The System's investment in capital assets as of November 30, 2017 is summarized below, net of accumulated depreciation.

Land and Land Improvements	\$ 1,459,475
Sewage System	64,609,251
Water System	19,425,696
Other Property, Plant and Equipment	1,607,208
Net Intangible Assets	1,907,989
Construction in Progress	<u>755,659</u>
 Total Net Capital Assets	 <u>\$ 89,765,278</u>

Capital asset activity included \$3,603,093 in additions and \$1,340,437 of disposals. Of the capital asset additions, \$740,090 was contributed. Additional information on the System's capital assets can be found in Note 3 of the financial statements.

**Other Assets**

Other Assets decreased from \$4,934,374 in 2016 to \$4,678,203 in 2017. The decrease is directly related to the receivable for the York Township water tower and metering station that was built with funds from special service areas.

**Long Term Debt**

The System has three outstanding Revenue Bond issues and one outstanding loan from the Illinois Environmental Protection Agency. Revenue Bonds were issued in 2008 to advance refund and refinance outstanding bonds from 2003 and also provided \$14.9 million in new money to fund its capital improvement program. In 2012, The System issued \$2.4 million in Revenue Bonds to repay the outstanding loan to the DuPage Water Commission for the buy in fee which is a membership requirement of the commission. The System also entered into a loan agreement with the Illinois Environmental Protection Agency for the construction of the York Township water system and water tower.

**THE WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

The following is a summary of the outstanding long-term obligations of the System as of November 30, 2017.

Series 2008A	\$ 4,145,000
Series 2008B	4,135,000
Series 2012	1,310,000
IEPA Loan (2012)	4,118,774
Unamortized debt premium	63,899
Accrued sick, vacation and retention payable	1,430,388
Other post employment benefit payable	56,620
Net pension liability	<u>3,746,008</u>
 Total Long Term Debt	 \$ <u>19,005,689</u>

Additional information on the System's long term debt can be found in Note 5 of the financial statements.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The System is supported solely by user charges and other miscellaneous income. Miscellaneous income includes connection revenue, septic revenue, cell tower leases, and interest income.

The current economic conditions, if continued in 2018, will have an impact on connection revenue, interest income and user charges.

The connection revenue forecast for 2018 is conservative and is based on local economic conditions. It is anticipated that the connection revenues will increase from 2017 to 2018. The local economy has continued to slowly recover and residential and commercial developers have started new construction and have purchased connection permits in various parts of the County. Interest income is expected to be at or near 2017 levels.

User charges may be influenced by several factors, including: 1.) An increase in consumption due to a decrease in foreclosed or vacant properties. 2.) An increase in consumption due to new housing and commercial developments. 3.) An increase in consumption as new areas are served by the System. 4.) A reduction in consumption resulting from water conservation by customers experiencing an increase in water rates. 5.) Increase or reduction in consumption due to climate conditions.

**THE WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
As of and for the Year Ended November 30, 2017**

---

Over the past several years, the System converted all but one of its well water systems to Lake Michigan water. This conversion has had and will continue to have an impact on the operational expenditures for the water system as the System must now pay for Lake Michigan water. The System decommissioned the older water facilities, but will maintain them for emergency/standby sources of water.

A rate study was done in 2015 to set rates for water, sewer, sewer maintenance, and administrative fees. The purpose of the study was to allow the System to balance revenues with expenditures through 2019. User rates for the sewer system will remain at \$2.57 per thousand gallons until 2017 when they will be raised to \$2.80. Sewer maintenance rates will remain at \$.95 until 2017 when they will be increased to \$1.00 per thousand gallons. Administrative fees will remain at \$5.78 through 2019. Water rates will remain at \$9.40 until 2018 when they will be increased to \$9.85 per thousand gallons. The System continued to audit water meters with questionable readings. If the meter was found to be defective it was replaced and the System will continue to audit water meters in areas where water loss was high. In addition, the System is testing automated meter reading in its smaller water systems.

The System anticipates retirement payouts in 2018 to be similar to those in 2017. Retirements directly affect cash flows for the department. DuPage County has an employee retention program that provides for a retention payment at retirement for eligible employees. In addition to this retention payment, employees receive a payout for their accrued vacation and sick time accrued prior to December 1, 2011.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the Water and Sewerage System's financial results and position for all those with an interest in the System's finances. Questions concerning any of the information provided in this report or requests for additional information may be addressed to the Financial Services Administrator at 7900 S. Route 53, Woodridge, IL 60517 or questions may be submitted to the Financial Services Administrator via email at [publicworks@ec.dupageco.org](mailto:publicworks@ec.dupageco.org).

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

NOTES TO FINANCIAL STATEMENTS  
As of and for the Year Ended November 30, 2017

---

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

---

The financial statements of the Water and Sewerage System of DuPage County, Illinois (System) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to enterprise funds of governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The significant accounting principles and policies utilized by the System are described below.

### ***REPORTING ENTITY***

The System began operations in 1962 and is an enterprise fund of DuPage County (County). The System, which is operated by the DuPage County Public Works Department, owns and operates sewerage collection and treatment facilities along with water pumping and distribution systems in certain areas of the County. Financial policies and regulations are established and adopted by the passage of a governing ordinance (ordinance). The System consists of an operating fund and multiple bond, interest, and reserve accounts required by ordinances described in Note 5. All intrafund transactions are eliminated.

### ***MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION***

The System is presented as an enterprise fund of the County. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business or where the governing body has decided that the determination of revenues earned, costs incurred, and net income is necessary for management accountability.

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

---

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

---

### **ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION**

#### **Cash and Investments**

The System's cash and investments consist of demand deposits. For the statement of cash flows, cash equivalents have original maturities of three months or less from the date of acquisition.

Illinois Statutes authorize the System to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

The System follows the investment policy adopted by the County. That policy follows the state statute for allowable investments. Additionally, the System's restricted cash and cash equivalents must be invested in qualified investments as directed by the revenue bond ordinance relating to the Series 2008A, Series 2008B and Series 2012 Water and Sewerage System Revenue Bonds. Qualified investments shall mean:

- (1) direct obligations of, or obligations the timely payment of which is fully guaranteed by, the United States of America;
- (2) certificates of deposit or time deposits issued by any bank or savings and loan institution and
  - (i) insured by the Federal Deposit Insurance Corporation or
  - (ii) to the extent not insured as described in (i), secured by obligations described in (1) above held by the depository which have a market value (exclusive of accrued interest) at all times at least equal to the principal amount of such certificate or time deposit;
- (3) obligations of the Federal Home Loan Bank, Federal Farm Credit Administration, Federal National Mortgage Association, Federal Intermediate Credit Banks, Bank for Cooperatives or the Federal Land Bank;
- (4) obligations of any state which are rated in either of the two highest rating categories by both Moody's Investors Service and Standard & Poor's Rating Services (or a nationally recognized successor of either);
- (5) repurchase agreements extending not more than 30 days with any banks which are members of the Federal Reserve System or with government bond dealers recognized as primary dealers by the Federal Reserve Bank of New York that are secured by obligations described in (1) above which obligations
  - (i) have a current market value at least equal to 103% of the amount of the repurchase agreement, marked to market weekly and
  - (ii) have been deposited in trust by such banks or dealers with a Federal Reserve Bank or branch for the benefit of the County and the appropriate fund or account as collateral security for such repurchase agreements; and

NOTES TO FINANCIAL STATEMENTS  
As of and for the Year Ended November 30, 2017

---

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

---

### ***ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)***

- (6) obligations of any state or political subdivision or instrumentality of any state which are secured by obligations described in (1) above.

#### ***Receivables/Payables***

Outstanding balances between the System and other funds of the County are reported as due to/from County funds. The System and the County perform services for one another, in some instances without the exchange of cash. A due to/from is set up to track the balance of what is owed by each party. As activity is back and forth, the interfund balance is considered to be current.

The System states accounts receivable at the amounts billed to customers. The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of amounts that will not be collected.

#### ***Unearned Revenue***

The System reports unearned revenue in connection with resources that have been received, but not yet earned.

#### ***Restricted Assets***

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. When both restricted and unrestricted resources are available for use and using restricted resources is appropriate, it is the System's policy to use restricted resources first, then unrestricted resources.

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

---

#### ***ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION (cont.)***

##### ***Capital Assets***

Capital assets purchased, constructed and obtained through federal grants are recorded at cost or estimated historical cost. Major outlays for System plant are capitalized as projects are constructed. Interest incurred during the construction phase is reflected in the capitalized value of the capital assets constructed, net of interest earned on the invested proceeds over the same period. The total interest expense incurred by the System during the current fiscal year was \$456,293. Of this amount, none was included as part of capital assets under construction in progress due to the bond proceeds being spent down in prior years. Certain System plant and sewer systems acquired under agreements providing for connections in lieu of cash are recorded at the value of the connection charges at the time of fulfillment of all prepaid connections due under each applicable agreement. In addition, certain contributed property has been recorded at the donor's cost or engineering estimate, whichever was lower at the time the property contributed was recorded. A minimum capitalization threshold of \$25,000 and an estimated useful life greater than one year has been established for capital asset reporting.

Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of these assets, generally between 3 and 70 years. Expenditures which significantly extend the lives or expand capacity of the capital assets are capitalized. All other repairs and maintenance are charged to operations currently.

##### ***Deferred Outflows of Resources***

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

##### ***Accrued Vacation, Sick Leave and Retention***

The System has accrued its estimated liability for compensated absences relating to accrued vacation, sick leave, and the employee retention program for eligible employees as of November 30, 2017. The liability is liquidated from general operating revenues of the System.

##### ***Long-Term Obligations***

Long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Gains or losses on prior refundings are amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter. Issuance costs are expensed in the period incurred.

##### ***Deferred Inflows of Resources***

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

---

### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

---

#### ***REVENUES AND EXPENSES***

The System distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the System's principal ongoing operations. The principal operating revenues of the System is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### ***Charges for Services***

Billings are rendered and recorded bi-monthly based on metered usage. The System accrues revenues beyond billing dates. Current water and sewerage rates were approved by the Public Works Committee on October 13, 2015 to sewer rates effective January 1, 2017. The motion also incorporated water rate changes effective January 1, 2018.

#### ***Operating Expenses***

The System accounts for direct sewerage, sewer maintenance, and water system operating expenses separately. Common indirect expenses are allocated to various operating expenses of sewerage, sewer maintenance, and water operations based on the benefits those costs provide. In addition, the System accounts for certain administrative expenses separately.

#### ***Capital Contributions***

Cash and capital assets are contributed to the System from customers, the County, or external parties. The value of property contributed to the System is reported as revenue on the statements of revenues, expenses, and changes in net position.

The System charges new customers a connection fee to connect to the System. Fees collected are recorded as capital contributions on the statements of revenues, expenses, and changes in net position.

#### ***Comparative Data***

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended November 30, 2016, from which such summarized information was derived.

### ***EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT PERIOD FINANCIAL STATEMENTS***

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, GASB Statement No. 80, Blending Requirements for Certain Component Units an amendment of GASB Statement No. 14, GASB Statement No. 81, Irrevocable Split-Interest Agreements, GASB Statement No. 83, Certain Asset Retirement Obligations, GASB Statement No. 84, Fiduciary Activities, GASB Statement No. 85, Omnibus 2017, GASB Statement No. 86, Certain Debt Extinguishment Issues, GASB Statement No. 87, Leases, and GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. Application of these standards may restate portions of these financial statements.

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

---

### NOTE 2 – CASH AND INVESTMENTS

---

The System is covered under the County's investment policy, which states that time deposits in excess of FDIC or FSLIC insurable limits must be secured by some sort of collateral to protect public deposits in a single financial institution if it were to default due to poor management or economic factors. All non FDIC or FSLIC financial institutions must fully collateralize deposits.

As of November 30, 2017, cash and cash equivalents at year end consisted of the following:

	Carrying Value	Bank Balance	Associated Risks
Deposits with financial institutions	<u>\$ 11,790,070</u>	<u>\$ 11,400,108</u>	Custodial credit
Per statement of net position			
Cash	\$ 8,559,527		
Restricted cash	<u>3,230,543</u>		
Total deposits and investments	<u>\$ 11,790,070</u>		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held at an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

The System maintains separate cash and investment accounts at the same financial institutions utilized by the County. Federal depository insurance applies to all County accounts, and accordingly, the amount of insured funds is not determinable for the System alone. Therefore, coverage for the System may be reduced. Further information about whether County deposits are insured, collateralized, or uncollateralized is available from the County's financial statements.

#### ***Custodial Credit Risk***

#### **Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the System's deposits may not be returned to the System.

The System is covered under the County's investment policy, which states that time deposits in excess of FDIC or FSLIC insurable limits must be secured by collateral to protect public deposits in a single financial institution if it were to default due to poor management or economic factors. All non FDIC or FSLIC financial institutions must fully collateralize deposits. Further information about whether County deposits are insured, collateralized, or uncollateralized is available from the County's financial statements.

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

### **NOTE 4 – RESTRICTED ASSETS – SPECIAL SERVICE AREA ASSESSMENTS RECEIVABLE**

As of November 30, 2017, the System has \$4,678,203 due from the County's special service area funds. The balance related to the reimbursement of costs for the York Township water improvement project. The reimbursement will be repaid in installments through fiscal year 2033 and \$4,419,134 of the reimbursement is due after one year.

### **NOTE 5 – LONG-TERM OBLIGATIONS**

Long-term obligations activity for the year ended November 30, 2017, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue Bonds	\$ 10,830,000	\$ --	\$ 1,240,000	\$ 9,590,000	\$ 1,290,000
Other Liabilities:					
IEPA construction loans	4,349,944	-	231,170	4,118,774	234,069
Unamortized debt premium	79,548	-	15,648	63,899	-
Accrued compensated absences	1,698,999	390,699	659,310	1,430,388	204,501
Other post-employment benefit payable	60,278	-	3,658	56,620	-
Net pension liability	3,666,995	79,013	-	3,746,008	-
 Total Long-Term Obligations	 <u>\$ 20,685,764</u>	 <u>\$ 469,712</u>	 <u>\$ 2,149,786</u>	 <u>\$ 19,005,690</u>	 <u>\$ 1,728,570</u>

### **REVENUE BONDS PAYABLE**

Revenue bonds outstanding at year end are as follows:

Date	Purpose	Final Maturity	Interest Rate	Original Amount	Outstanding Amount 11/30/17
7/23/2008	Refund bonds and construction of plant	1/1/2024	4.5%	\$ 8,250,000	\$ 4,145,000
7/23/2008	Refund bonds and construction of plant	1/1/2024	4.5%	8,250,000	4,135,000
4/25/2012	DuPage Water Commission buy-in	1/1/2022	3%-4%	2,445,000	1,310,000
	Total			<u>\$ 18,945,000</u>	<u>\$ 9,590,000</u>

### NOTE 5 – LONG-TERM OBLIGATIONS (cont.)

---

#### *PLEDGED REVENUES*

The System has pledged a portion of future net revenues to repay the revenue bonds issued on July 23, 2008 and April 25, 2012. The bonds are payable solely from the revenues generated by the System and are payable through January 1, 2024. The total principal and interest remaining on the bonds is \$11,035,933. For the current year, principal and interest paid and total net revenues were \$1,663,788 and \$3,898,390, respectively. Annual principal and interest are expected to require approximately 4% of gross revenues.

#### *WATER AND SEWERAGE SYSTEM REVENUE BOND ORDINANCE*

On July 21, 2008, the County Board adopted a revenue bond ordinance authorizing and providing for the issuance of Water and Sewerage System Revenue Bonds, Series A of 2008 and Series B of 2008. On March 13, 2012, the County Board adopted a revenue bond ordinance authorizing and providing for the issuance of Water and Sewerage System Revenue Bonds, Series 2012. The 2008 and 2012 Ordinances required a "Revenue Fund" and various accounts within that fund to be established. The Ordinances account structure is as follows:

**Operation and Maintenance Account** – An amount sufficient to make the amount then on deposit equal to 1/12<sup>th</sup> of the amount of current expenses budgeted for the current fiscal year.

**First Lien Interest Account** – An amount sufficient to cover interest becoming due on the next succeeding interest payment date on a monthly pro rata basis.

**First Lien Principal Account** – An amount sufficient to cover principal becoming due on the next succeeding principal payment date on a monthly pro rata basis.

**First Lien Bond Reserve Account** – An amount equal to the maximum annual debt service with respect to the 2008A and 2012 Revenue Bonds.

**Second Lien Interest Account** – An amount sufficient to cover interest becoming due on the next succeeding interest payment date on a monthly pro rata basis.

**Second Lien Principal Account** – An amount sufficient to cover principal becoming due on the next succeeding principal payment date on a monthly pro rata basis.

**Second Lien Bond Reserve Account** – An amount equal to the maximum annual debt service with respect to the 2008B Revenue Bonds.

**Subordinated Indebtedness Account** – An amount sufficient to cover interest becoming due on the IEPA construction loan on the next succeeding interest payment date, and an amount sufficient to cover the principal of the loan coming due on the next succeeding principal maturity date.

**Depreciation Account** – An amount equal to the percentage of the Depreciation Funding Requirement as determined by the Superintendent of Public Works whenever the balance in said account is less than the Depreciation Funding Requirement.

**General Account** – All revenues remaining in the Revenue Fund after all required transfers are made to the respective accounts.

## **NOTE 5 – LONG-TERM OBLIGATIONS (cont.)**

### ***WATER AND SEWERAGE SYSTEM REVENUE BOND ORDINANCE (cont.)***

Deposits held in the Revenue Fund are required to be transferred, when available, to the established accounts in the above order.

At November 30, 2017, all required balances were in accordance with the Ordinance.

## **NOTE 6 – IEPA CONSTRUCTION LOANS**

The System borrowed funds from the Illinois Environmental Protection Agency (IEPA) for the York Township water improvement project. The original principal amount to be repaid under the loan agreement #L17-4161 with the IEPA is \$4,915,421. The loan bears an interest rate of 1.25% per annum and matures on September 29, 2033. The total principal paid in fiscal year 2017 was \$231,170.

Payments due on the IEPA Construction Loan #L17-4161 through maturity are as follows:

<u>Fiscal Year</u>	IEPA Construction Loan		
	Principal	Interest	Total
2018	\$ 234,069	\$ 50,755	\$ 284,824
2019	237,004	47,820	284,824
2020	239,975	44,849	284,824
2021	242,985	41,840	284,824
2022	246,032	38,793	284,825
2023-2027	1,277,213	146,908	1,424,121
2028-2032	1,359,321	64,799	1,424,120
2033	282,175	2,648	569,648
Totals	\$ 4,118,774	\$ 438,412	\$ 4,557,186

### NOTE 7 – NET POSITION

---

GASB No. 34 requires the classification of net position into three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Net investment in capital assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This component of net position consists of net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the System's policy to use restricted resources first, then unrestricted resources as they are needed.

The following calculation supports the System's net investment in capital assets:

Capital assets, net of accumulated depreciation	\$ 89,765,278
Less: Capital related debt	
Current portion of capital related IEPA construction loan	234,069
Current portion of capital related revenue bonds	1,290,000
Long-term portion of capital related IEPA construction loans	3,884,705
Long-term portion of capital related revenue bonds	8,300,000
Unamortized debt premium	63,899
Sub-Total	<u>13,772,673</u>
Add: Unspent debt proceeds – water and sewer bond account	<u>2,323</u>
Total Net Investment in Capital Assets	<u>\$ 75,994,928</u>

The following calculation supports the System's net position restricted for debt service:

Total restricted assets	\$ 7,908,746
Unspent debt proceeds – water and sewer bond account	(2,323)
Liabilities payable from restricted assets:	
Accrued interest payable	<u>(174,826)</u>
Total Net Position Restricted for Debt Service	<u>\$ 7,731,597</u>

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

---

### NOTE 8 – RISK MANAGEMENT

---

The System maintains a managed self-insured automobile and liability risk management program. Under this program, the System retains the first \$2,000,000 of general claim risk per occurrence. An additional insurance policy covers claims in excess of this amount. Liabilities of the program are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. An amount for claims incurred but not yet reported has not been accrued in the financial statements at November 30, 2017, due to minimal claims experience over the past three years. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

Employees of the System are covered for health benefits and workers' compensation under the DuPage County self-insurance program, reported in an Internal Service Fund of the County. The System is charged a share of the overall program cost, which totaled \$798,856 in fiscal 2017. See the DuPage County Comprehensive Annual Financial Report for additional information.

---

### NOTE 9 – DEFINED BENEFIT PENSION PLAN

---

#### *ILLINOIS MUNICIPAL RETIREMENT FUND*

The System contributes to the Illinois Municipal Retirement Fund (IMRF) an agent multiple employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois through DuPage County, Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

The employees of the System are pooled with the employees of DuPage County for purposes of actuarial valuation. As the System is participating under the County's employer number, IMRF is considered to be a cost-sharing plan for the System.

*Plan Description.* All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF has a two tier plan. Members who first participated in IMRF or an Illinois Reciprocal System prior to January 1, 2011 participate in Tier 1. All other members participate in Tier 2. For Tier 1 participants, pension benefits vest after 8 years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate of earnings (average of the highest 48 consecutive months' earnings during the last 10 years) for credited service up to 15 years and 2% for each year thereafter.

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

---

### NOTE 9 – DEFINED BENEFIT PENSION PLAN (cont.)

---

#### *ILLINOIS MUNICIPAL RETIREMENT FUND (cont.)*

For Tier 2 participants, pension benefits vest after 10 years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1 2/3% of their final rate of earnings (average of the highest 96 consecutive months' earnings during the last 10 years, capped at \$106,800) for credited service up to 15 years and 2% for each year thereafter. However, an employee's total pension cannot exceed 75% of their final rate of earnings. If an employee retires after 10 years of service between the ages of 62 and 67, and has less than 30 years of service credit, the pension will be reduced by 1/2% for each month that the employee is under the age of 67. If an employee retires after 10 years of service between the ages of 62 and 67, and has between 30 and 35 years of service credit, the pension will be reduced by the lesser of 1/2% for each month that the employee is under the age of 67 or 1/2% for each month of service credit less than 35 years. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by Illinois Compiled Statutes.

*Contributions.* As set by statute, System employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The statute requires the System to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The System's actuarially determined contribution rate for calendar year 2016 was 11.75% percent of annual covered payroll. The System also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

*Fiduciary Net Position.* Detailed information about the IMRF fiduciary net position as of December 31, 2016 is available in the separately issued DuPage County, Illinois Comprehensive Annual Financial Report as of and for the year ended November 30, 2017.

*Net Pension Liability.* At November 30, 2017, the System reported a liability for its proportionate share of the net pension liability that reflected the System's portion of the total net pension liability associated with the County's employer number. The amount recognized by the System as its proportionate share of the net pension liability, the County's share of the net pension liability, and the total net pension liability associated with the County's employer number were as follows:

System's proportionate share of the collective net pension liability	\$	3,746,008
County's proportionate share of the collective net pension liability		<u>117,209,453</u>
Total	\$	<u>120,955,461</u>

The net pension liability was measured as of December 31, 2016. The System's proportion of the net pension liability was based on the System's share of contributions to IMRF for the fiscal year ended November 30, 2017, relative to the total contributions of the System and County during that period. At November 30, 2017, the System's proportion was 3.10%.

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

### NOTE 9 – DEFINED BENEFIT PENSION PLAN (cont.)

#### *ILLINOIS MUNICIPAL RETIREMENT FUND* (cont.)

*Summary of Significant Accounting Policies.* For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Actuarial Assumptions.* The assumptions used to measure the total pension liability in the December 31, 2016 annual actuarial valuation included a 7.50% investment rate of return, (b) projected salary increases from 3.75% to 14.50%, including inflation, and (c) inflation of 3.50% and price inflation of 2.75%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.

*Mortality.* For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

*Long-Term Expected Real Rate of Return.* The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Allocation	Arithmetic	Geometric
Equities	38.00 %	8.30 %	6.85 %
International equities	17.00 %	8.45 %	6.75 %
Fixed income	27.00 %	3.05 %	3.00 %
Real estate	8.00 %	6.90 %	5.75 %
Alternatives	9.00 %		
Private equity		12.45 %	7.35 %
Hedge funds		5.35 %	5.25 %
Commodities		4.25 %	2.65 %
Cash equivalents	1.00 %	2.25 %	2.25 %

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

### NOTE 9 – DEFINED BENEFIT PENSION PLAN (cont.)

#### *ILLINOIS MUNICIPAL RETIREMENT FUND* (cont.)

*Discount Rate.* The discount rate used to measure the total collective pension liability for IMRF was 7.50%. The discount rate calculated using the December 31, 2015 measurement date was 7.47%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

*Discount Rate Sensitivity.* The following is a sensitivity analysis of the System's proportionate share of the net pension liability / (asset) to changes in the discount rate. The table below presents the System's proportionate share of the net pension liability calculated using the discount rate of 7.50% as well as what the System's proportionate share of the net pension liability / (asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
System's proportionate share of the collective net pension liability	\$ 6,969,843	\$ 3,746,008	\$ 1,114,447

*Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.* For the year ended November 30, 2017, the System recognized pension expense of \$1,220,132. The System reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 131,450	\$ -
Changes in assumptions	96,519	60,506
Net difference between projected and actual earnings on pension plan investments	1,117,942	-
Contributions subsequent to the measurement date	437,412	-
Total	\$ 1,783,323	\$ 60,506

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

## NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended November 30, 2017

### **NOTE 9 – DEFINED BENEFIT PENSION PLAN (cont.)**

#### ***ILLINOIS MUNICIPAL RETIREMENT FUND (cont.)***

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability/(asset) for the year ending November 30, 2017. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$1,285,405) will be recognized in pension expense as follows:

<u>Year Ending December 31</u>	<u>Amount</u>
2018	\$ 527,561
2019	406,507
2020	327,347
2023-2024	<u>23,990</u>
Total	<u>\$ 1,285,405</u>

### **NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS**

The County provides limited health-care insurance for certain eligible employees. The Plan provides an explicit premium subsidy to certain employees who meet eligibility conditions, and other coverage to certain employees as a function of their early retirement agreements. The County's annual other postemployment benefit costs are calculated based on the annual required contribution of the employer as determined by an actuary in accordance with parameters of Governmental Accounting Standards Board Statement No. 45. The County's annual required contribution and actual contribution for the past three years was as follows:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Annual Required Contribution	<u>\$ 1,221,066</u>	<u>\$ 1,174,102</u>	<u>\$ 1,378,138</u>
Actual Contribution	<u>\$ 1,143,605</u>	<u>\$ 974,872</u>	<u>\$ 923,780</u>

The 2017 annual required contribution and actual contribution were estimated based on the prior year actuarial valuation. As of November 30, 2017, the estimated portion of the County's other post employment benefit obligation payable applicable to the System was \$56,620. Please refer to the County's financial statements for additional information concerning the plan and the other postemployment benefit obligation.

# WATER AND SEWERAGE SYSTEM OF DUPAGE COUNTY, ILLINOIS

NOTES TO FINANCIAL STATEMENTS  
As of and for the Year Ended November 30, 2017

---

## NOTE 11 – COMMITMENTS AND CONTINGENCIES

---

### *Claims and Judgments*

From time to time, the System is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the System's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the System's financial position or results of operations.

### *Open Contracts*

The System has signed construction contracts that continue into subsequent years. These contracts are for Knollwood Bionutrient Removal and raw pump rehabilitation at Woodridge. The value of service provided and corresponding liability as of November 30, 2017 has been accrued in these financial statements. The value of service to be provided in subsequent fiscal years has not been accrued and is approximately \$2,676,695.

---

## NOTE 12 – SUBSEQUENT EVENT

---

During the year, the System entered into an intergovernmental agreement with the Highland Hills Sanitary District and the Flagg Creek Water Reclamation District for review of accounts, and operations in preparation for dissolution of the Highland Hills Sanitary District. Upon dissolution of the Highland Hills Sanitary District, the System will assume responsibility for operations and maintenance of the Highland Hills water system. Dissolution is expected to occur in fiscal year 2019.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS  
ON DEBT COVENANTS COMPLIANCE

To the Honorable Chairman and Members  
of the County Board  
DuPage County, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Water and Sewerage System of DuPage County, Illinois (System) as of November 30, 2017, and have issued our report thereon dated May 7, 2018.

In connection with our audit, nothing came to our attention that caused us to believe that the System was not in compliance with any of the terms, covenants, provisions or conditions of the Revenue Bond Ordinances adopted on August 12, 2003 (amended on July 21, 2008) or adopted on March 13, 2012 insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

This report is intended solely for the information and use of the DuPage County Board, the Public Works Committee, management of the System, System users, and System Revenue Bondholders, and is not intended to be, and should not be, used by anyone other than these specified parties.
